Dear Members of the World Science Fiction Society,

Re: Worldcon 2028

On behalf of Screen Queensland, we are pleased to express our support for the Brisbane *bid to host Worldcon in 2028*.

Screen Queensland is the state-owned Government agency that invests in locally made films, series, digital games. We are based in the city of Brisbane which is home to one of Australia's most dynamic and fastest growing games development hubs and has a thriving ecosystem of studios ranging from global heavyweights to innovative indie teams.

Our region of Southeast Queensland has been the home to works of science fiction to name a few: *Voltron*, *Allen*, *Monarch: Legacy of Monsters S2*, *Spiderhead*, *Love and Monsters* and the upcoming theatrical release *Mortal Kombat 2*.

With generous incentives, a strong pool of talent and incredible locations and resources we attract world-class creators, productions and events from around the world and would be excited to welcome your members to Queensland.

Brisbane is strategically located in the Asia-Pacific region and Brisbane is exceptionally well positioned to host this congress. The city offers excellent international connectivity, a world-class convention centre located in the CBD, and a welcoming subtropical climate that provides an ideal setting for Worldcon members to experience the best of Australia.

Screen Queensland fully endorses the Worldcon 2028 bid and is committed to supporting the successful delivery of the event in Brisbane and would be delighted to see Worldcon hosted in Brisbane and look forward to welcoming Members to Queensland.

Yours Sincerely,

A handwritten signature in black ink that reads "Renae Biles".
